MEETING + TRAINING TABLES

Watson Miro - A compelling alternative to traditional veneer products, Miro harnesses the precision and durability of mitered steel with the performance of modern laminate technology for conference tables that articulate a fresh vision for modern professional work environments.

Krug Nuvo - An innovative new design that makes tables fast and easy to assemble, and re-configure. Stunningly beautiful (yet Durable) materials: gloss-finished aluminum, veneers, as well as solid surface, laminates and glass. Artfully designed connectivity and cable management.

ERG Drake - A Simple yet stylish collection that can be versatile in any classroom, cafe or multi-use room. This series includes square, round, and rectangular tables that nest and also includes a teacher's desk, mobile whiteboard and podium

Woodtech Butcher Block - Woodtech specializes in crafting each client's unique vision for conference tables, reception stations, private offices, architectural walls, and furniture for training, collaboration, service and retail environments.

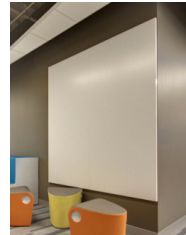

WHITEBOARDS + SCREENS

Watson Screens - Watson's collection of desk-mounted and freestanding privacy screens is perfect for creating both workspace privacy and space division within the open office

Watson Etch - Etch is a family of mobile markerboards that leverages a breakthrough in steel powder-coating technology to deliver a high performance product with a refined silhouette. The user-friendly design is underscored by flexible magnetic accessories that can be placed anywhere on the surface.

Egan Dimension Stele - Clean contemporary design and EVS combined to create a low gloss, dry-erase magnet-compatible board and non-reflective projection surface in one product. Thanks to the steel substrate below the EVS, Dimension stele can handle magnetic attachments from edge to edge.

Watson Bahn Rail - Never before has the workplace demanded so much flexibility in the way people need to work. Bahn Rail provides that flexibility, by providing a free-standing "rail" for light or heavy power or storage components - and that can be endlessly configured to meet the demands of any floor plan.

ERGONOMIC PRODUCTS

ESI Victory - LX - ESI's new leading table solution is ADA compliant and exceeds BIFMA x5.5 requirements and GI-2013 standards. Comes standard with a lifting speed of 1.4" per second, a 220-pound lifting capacity, adjustable cross channels, digital keypad, 21.6" - 47.7" range (without top), and anti-collision safety feature.

ESI Triumph - LX - ESI's most cost effective table solution comes standard with a lifting speed of 1.4" per second, a 220-pound lifting capacity, adjustable cross channels, digital keypad, 26.1" - 43.4" height adjustment range (without Top), and anti-collision safety feature.

ESI Evolve - Sustainably designed to grow and adapt to changing technology and work spaces, ESI's highly customizable Evolve monitor arm series offers virtually unlimited flexibility in configuring up to 6 displays

ESI Solution All Fit - The Solution All-Fit is the perfect keyboard solution for height adjustable tables and benching applications where space is limited. This innovative mechanism retracts at two points to achieve full clearance under work surfaces as shallow as 13 inches.

SEATING

Mayline Valore - The Valore flip seat training series is ideally adaptable and incredibly comfortable. Standard options include two back heights, flex back, mesh or upholstered backs, arms or armless, glides or casters, task version, and multiple upholstery options.

ERG Samba - The Samba collection features three distinct fully upholstered seat designs. Several different bases, including metal leg, wood leg, plan four-star, steel four-star, and five-star base with casters. Wood leg, sled base and welded metal 4-leg bar stools complete the collection

ERG Strike - Strike, designed by Paolo Scagnellato, features a one-piece polypropylene shell with a perforated back and a clean out feature offering style and ventilation. Strike chairs and stools are offered in 30 frame colors and 8 poly colors to complement any office.

ERG Laguna - Laguna offers comfortable and stylish seating to enhance any area. Angled wood or metal legs provide an inspired aesthetic.

Stylex Share - As an activity-based, modular system. It is one of very few lines that allow seamless integration of task and lounge height seating. The two heights also encourage mixing dining with casual work and conferencing.

Stylex NYC - NYC is more than a single line of furniture. Rather, it's flexible understructure supports four, well-differentiated upholstery styles. The four styles (Wrap-Over, Standard, Relaxed and Loose) each convey a different mood. Each has its own vocabulary. And each speaks its own language according to how its specified.

Krug Karma - Karma solidly satisfies a broad range of healthcare seating requirements from exam and patient rooms to waiting, meeting, administrative and cafeteria areas. Rated to 500 pounds, Karma has application well beyond healthcare environments.

Stylex Nestle - Nestle rises to meet the demands of form and functional flexibility with its harmonious ergonomic form and extensive array of base options. Including cantilevered sled frame, traditional sled, wood legs, four-blade bases with swivel returns and five-blade bases on casters with height adjustment.

Stylex Ridge Guest - A bucket chair with a twist. Quite literally, Ridge Guest draws on the archetypal bucket chair and distinguishes itself by adding a twisting bevel detail. Subtly blending purity of form with contemporary accents, Ridge Guest (6 base options) confidently presents its harmonious form

9to5 Cydia - The NeoCon award Winning design of the Cydia chair (inspired by the shape of butterfly wings) truly sets this stylish chair apart. Now available with upholstered seat and back option as well.

Stylex Sava - Sava wasn't conceived to be flashy or faddish. Rather, it is simply timeless. Making a sophisticated first impression and performing beautifully throughout its working life, this family of chairs is built for demanding, knowledgeable users in this generation and the next.

9to5 Vault - Vault's ergonomic design and sleek look make it a great choice for conference or office applications. High quality woven tension mesh (8 color Options) conforms to the users back, following every move with support, including the lumbar region.

Stylex Verve - A versatile plastic shell chair (with upholstery options) that offers inspiring, affordable, ergonomic seating in the types of flexible spaces where people now meet and work. As office footprints shrink, there is an increased demand for appropriately scaled seating that does not compromise a user's experience

9to5 Theory - Theory is 9to5's most advanced task chair collection featuring mesh or upholstered seat, adjustable seat depth, back height, and lumbar in 11 different mesh colors!

Stylex Yoom - The Yoom Lounge collection is defined by its soft, simple forms and unrestricted configurability. Carefully considered proportions and upholstery construction ensure that Yoom offers a highly comfortable sit.

Stylex Cove - The Cove Lounge chair is as much about comfort as it is about form. Both visually striking and welcoming, Cove offers tremendous flexibility and will support most any seated posture with room to spare for your tablet, laptop, or a good book.

STYLEX

F4 (This Year's NeoCon Gold Award winner in conference seating) represents an evolution in user-responsive seating, a graceful, lightweight appearance, and timeless styling. Thoughtful material selection and component design, F4 was created to comfortably and effortlessly move with its user and support a broad range of seated gestures without requiring manual adjustments.

- Features: F4 provides a unique torsion-spring mechanism that is totally concealed within its frame. The geometry of the chair, in combination with the springs, provides comfortable support for a broad range of users without adjustment.
- Design and options: Backs may be mesh or upholstered in one of three different styles. Knit seats are an option to match the full range of mesh colors. Frames are available in either polished aluminum or one of 20 powder coat finishes

Watson Sidecar - Introducing the Zo Sidecar (winner on this year's NeoCon Silver Award in storage). Space is at a premium in today's workplace, creating the need for mobile, versatile storage and organization solutions - in compact sizes. Watson's collection of compact storage products offer a smaller form without sacrificing function - allowing users the storage they need, at a fraction of the size. Watson's innovative laminate-steel storage products provide unique materiality and exceptional durability.

- Function: Sidecar redefines narrow-footprint companion storage both visually and interactively. With a compact footprint and thoughtful features set, Sidecar raises the bar for innovative, design-forward companion storage.
- Design & Options: Available in two sizes. Sidecar features unique, functional design details: an accent bezel lock face, no-pull drawer face, low profile casters, inset top surface, integrated tow bar and optional USB charging.
